Glimpse Of What Will Happen Next Year

THE young man in open-necked shirt, sweater, and flannels nibbled his nails and chain-smoked his way up and down the corridor strictly in the pattern set by all fathers-to-be.

But this corridor was 240ft. long and in Buckingham Palace, and the room outside which he paced held a wife who soon was to be Queen.

Most parents will hope now that the new baby will be a boy - a companion in future for the 10-year-old who was born to be King.

ROBB combines his artistry with foresight and hindsight, with fact and conjecture, to present the scene early next year. In the foreground stand the medical team in technical conclave from the left: Lord Evans, Nurse Rowe, Mr John Peel, Sir John Weir. And in the background, in democratic juxtaposition, Robb shows a section of the throng of family, Royal Household and nurses who will be present. In an earlier age, a royal birth was a matter for greater formality if no less rejoicing.

The official 'announcement of the last birth to a reigning sovereign (that of Princess Beatrice to Queen Victoria in 1857) read: "This afternoon, at a quarter before two o'clock, the Queen was safely delivered of a Princess, His Royal Highness Prince Albert, several lords of Her Majesty's Most Hon. Privy Council and ladies of Her Majesty's Bedchamber being present." The lords and ladies were there to satisfy public opinion since a baby was reputed to have been smuggled into a royal bed in 1688.

The traitor TWISTEW nistory

WITH royalty, no less, on his mother's side, Joseph was definitely "U." By 19 he had completed an excellent public school education. By 29 he had travelled widely, made influential friends, and was an important governor.

He did well. Too well. Success corrupted him, and when he made the big moral decision of his life he made the wrong one. He sided with the enemy that occupied his country.

In business as a truitor. Joseph recred his usual success. He lived sumptuously in the enemy ruler's own palace. He married an helress. And in his celf-indulgent old age Joseph devoted himself to writing books, Books that tortuously rationalise his infamy to "prove" he wasn't a traitor.

The celebrated coach responsible for a football being kicked intelligently all around the globe left Villa Park last week with a pension from the directors and a suitably-inscribed gold watch from the players. There was certainly no sug-gestion of such an involvement in my article on the subject which was published on August 1. Prepare for the re-entry of a new-style Frank Tyson into international cricket. The Typhoon, whom we all said had blown himself out into a harmless, gentle zephyr, is making a dramatic come-back not as a tearaway express relying on sheer speed but as a controlled pace man husbanding his strength with a shorter run and shrewdly using the experience he has gained on pitches all over the world.

Test umplie Charlle Elliott, once Derbyshire's opening butsman, described his spells as the best he had seen from a pace bowler this season. Now that's some recommendation in a season of line performances from the fast boys.

If a revised four list was issued it might weil include the names of Donald Carr. the Derbyshire captain, and Martin Horton, who, spart from one failure-and that in front of Messes. Allen and Robins!—has been a roaring Buccess as an opening balaman.

Last night's concert at the University's Loke Yew Hall made Hongkong acquainted with two leading artists from the Philippines, soprano Celerina P. Cayabyab and pianist Regalado Jose.
